## *Help us Help You*

We are committed to a safe tasting experience for you and appreciate your commitment to keeping us safe as well! A visit to Domaine Carneros may look slightly different these days, but what hasn't changed are our high standards of hospitality.

### *How we are protecting you*

**Giving you space:** Our open-air tasting space has been reconfigured to allow 6' between tables. Additionally, to allow space for social distancing, only those with an existing reservation or a scheduled curbside pickup are able to be on the Chateau grounds.

**Keeping it clean:** Tables and chairs are disinfected with commercial strength disinfectant before and after each reservation. All non-disposable items are sanitized with high heat or chemical cleaning. Our staff washes and sanitizes their hands before handling clean items.

**Masking up:** Our staff undergoes pre-shift health screenings and wears masks. They will remove their masks only if 6' distance can be maintained.

### *How we ask you to protect us*

**Respect our space:** Please observe our current reservations policy. We have limited the number of visitors to the property to ensure plenty of space to practice social distancing. Parties are limited to six or fewer guests. We will meet you at the front gate to confirm your visit. While here, please diligently maintain 6' social distancing from anyone not in your immediate party.

**Help us keep it clean:** You will find hand sanitizer stations have been added throughout the property to supplement frequent handwashing.

**Wear a mask:** If you arrive without a mask, one will be provided for you. You're required to wear it anytime you aren't seated at your table enjoying your wine. Any guest failing to maintain social distancing or refusing to wear a mask will be asked to leave.

**Be mindful:** This is new to all of us. Please treat our staff and fellow guests with patience and kindness. We promise to do the same and will do everything we can to make your visit truly enjoyable.
